Program Description

Entrepreneurial leaders envision, design, build, and adapt.

Most of all, they step into uncharted territory, identify challenges, and lead the way to creating a sustainable future. To be successful, entrepreneurs must develop radical approaches to communication, building alliances, strategy, and leadership.

A global, collaborative effort, this certificate program provides the opportunity to network and learn from key leaders at the forefront of global technology.

Through online learning, a residential conference, and an immersion experience in Silicon Valley, students will develop the acumen to become an entrepreneurial leader.

Designed For

Students and business professionals who wish to launch their own business or become leaders in their current fields.

What You'll Learn

- Holistically builds upon existing academic learning and professional experience.
- Participants expand their leadership capacity through learning, mentoring, and networking.
- Enhance managerial skillsets by examining creative business ventures and speaking with lead innovators

Eligibility

Open to all students from participating colleges as well as business professionals.

Program Cost:

- International Student Fee \$1,800
- International Faculty Fee: \$2,050
- International Professionals Fee: \$2,300
